Who we are and what we do

PLI is a local, family-built enterprise.

With strategic purpose-built facilities for all our capabilities in Karratha and Perth, We are deeply embedded in the Pilbara and committed to forging a respected legacy through enhancing community development.

PLI supply elite mining support services with exceptional response time.

The PLI reputation was formed in 2009 on reliability, and customer service and now manage over 150 staff across more than 30 Pilbara mine-sites, underpinned by a dedication to safety and efficiency. We create partnerships through integral and efficient service for positive impact within our community and business relationships.

Mission

To secure long term contracts and projects by being an organisation who is trusted and preferred by the Australian Resources and Mining sector. To create partnerships through integral and efficient service for positive impact within our community and business relationships.

Vision

To be the leading quality service provider in the Mining and Resource industry.

Culture

Inspiration and accountability is driven through leadership, training and education. We create a culture of self-empowerment by allowing our most valuable asset "Our People" to have the strength and belief to make the best decision regarding safety and production. Our culture inevitably creates foundations to retain top talent.

HISTORY & MILESTONES

2009

Registered business built a reputation in logistics and materials handling

2013

Expanded services to include sea fastening, mining support, and specialised rigging labour.

2015

Awarded the Citic Pacific Labour Supply Contract.

2018

Acquired ISO certification.

Our Shutdown Services

PLI brings extensive mine site experience, supported by a Quality Management System certified to ISO 9001, ISO 14001, and ISO 45001. We build trust through professional management, talented leaders, and skilled labour, spanning all construction and maintenance fields. Our track record demonstrates the ability to deliver timely, cost-effective shutdown maintenance for a range of mining equipment, including jaw crushers, apron feeders, and conveyor systems.

We ensure that all shutdown maintenance services are executed with strict adherence to safety protocols, incorporating daily safety briefings and hazard inspections to minimise risk. Committed to excellence, PLI confidently delivers successful project outcomes, providing the expertise and reliability necessary to support your operations.

Bucket wheel change out

Drive and pulley changeout

Conveyor maintenance

Specialising in the maintenance of apron feeders, and screen systems, our team ensures optimal performance of your material handling systems. This is supported by our expertise in crushing equipment and stacking/reclaiming technology. We maintain a rigorous focus on safety, implementing preventive measures and comprehensive hazard assessments before every conveyor upgrade or maintenance operation to ensure safe and efficient execution.

Mechanical inspections

Chute repairs

Luff cylinder changeout

Experienced in safe and efficient luff cylinder changeouts, our team applies industry-leading expertise in mechanical handling equipment to ensure minimal disruption to operations. Specialising in all aspects of material handling equipment, including stacking/reclaiming and conveyor systems, we provide a comprehensive service solution. We prioritise safety at every stage, ensuring that all procedures adhere to industry-leading safety standards to protect both our workforce and your assets.

Bogey wheel changeout and refurbishment

Structural integrity

Project-Specific Experience

We have successfully executed projects for clients including Rio Tinto and FMG, leveraging our expertise in jaw crushers, sizers, apron feeders, and conveyor maintenance. Our skilled team brings extensive knowledge across a wide range of disciplines to ensure project success.

On site/off site blasting and painting and fabrication

Drive alignments

QUALITY ASSURED THROUGH ISO CERTIFICATION

Our Clients

PLI emphasises collaborative partnerships across various sectors, showcasing success in projects with clients from mining to community development.

Our portfolio demonstrates expertise and commitment to meeting client needs.

"The quality of delivery from the team both in execution and in finish is second to none."

-Steve Keating
Manager Rail Operations Cape Lambert for Rio Tinto
